

## Engineering Group Engineering Geology Fund Award

The Engineering Group Engineering Geology Fund is available to all members of the Geological Society of at least one year's standing as a Fellow to support activities associated with Engineering Geology. This may include research activities, books, training courses, equipment but excludes conference/fieldtrip attendance and additional funding for student as these can be sought through separate Engineering Group Fund Awards. Priority will be given to those with limited alternative sources of funding as well as to those involved EGGS-sponsored activities. Grants are normally for sums up to £1000.

Applications can be submitted at any time but are reviewed twice a year. Applications should be made using the official application form and sent to the Secretary of EGGS by the deadline dates stipulated. Please ensure that anticipated budgets are complete and, where appropriate, identify the source(s) of financing, e.g. EGGS, Employer, external source/Department/Institution (give details), personal funds, etc..

Successful applicants will be required to provide a brief statement of expenditure and activities undertaken within 3 months after the event has taken place.

*Deadlines: 15<sup>th</sup> November and 15<sup>th</sup> May*

### General rules and procedures

1. No more than one grant will be awarded to an individual Geological Society member in any one calendar year (see also note 6 below).
2. Applications will be considered by an Awards Panel drawn from the EGGS Committee, normally consisting of at least three Officers and one Ordinary Member.
3. Results of each grant round will normally be available within 1 month of the deadline. Successful applicants will be notified in writing with full details of the awards made published on our website.
4. EGGS will not consider retrospective applications, i.e. to support activities that will already have occurred prior the deadline date. Furthermore, and to encourage well-planned and properly budgeted projects, EGGS will not consider applications for activities that will take place within 2 months of the deadline date.
5. Successful applicants must submit a short written report (suitable for publication) and/or a statement of expenditure, by a specified deadline (but within 3 months of the attending the conference).
6. No further applications from an individual will be considered until 12 months have elapsed from the time of receipt of written reports and/or statements of expenditure.
7. The financial support from EGGS should be acknowledged in any publication, poster or presentation arising from funded activities.

## Engineering Group Fund Application

**Name:**

**Address:**

**E-mail:**

**Occupation\* & Employer:**

**Fellowship Number:**

**Funding is required for the purpose of:**

### **Please provide full breakdown of costs:**

Please give a breakdown of major components and note that anticipated budgets should be complete. Where appropriate, identify the source of your budget components, e.g. EGGF, external funding, employer funding, personal funds, etc. A budget breakdown template is included.

### **Have you attempted to obtain funding from other sources?**

If YES, please provide details of funding bodies, amount(s) requested, amount(s) awarded (if known) or date of outcome. If NO, please state the reasons why no alternative funding has been sought.

### **Amount requested from the EGGF Fund:**

I certify that the information I have given is true.

**Signature:**

**Date:**

\*If a graduate/postgraduate, please state year of study (1/2/3rd etc.), whether full-time or part-time, and source and degree of funding (e.g. fully-funded NERC)
